SHIWAM KUMAR

Roorkee, Uttarakhand | +91-8077624510 | shiwam808460@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Entry-level **Data Analyst** with 6 months of internship experience in **SQL, Python, and Power BI**. Experienced in cleaning and analyzing **10,000+ records**, developing KPI dashboards, and building a customer churn prediction model achieving **80% accuracy** on a dataset of **7,043 customers** to derive actionable business insights.

TECHNICAL SKILLS

Programming & Querying:	Python, SQL, Joins, Filtering, Aggregations, Subqueries
Libraries:	Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Data Analysis:	Data Cleaning, Data Preprocessing, Data Transformation, Exploratory Data Analysis (EDA), Trend Analysis, KPI Analysis
BI & Visualization:	Power BI, DAX, Power Query, Advanced Excel, Pivot Tables, VLOOKUP/XLOOKUP, Dashboard Development
Databases:	MySQL, PostgreSQL
Machine Learning:	Scikit-learn, Logistic Regression, Classification, Feature Engineering, Model Evaluation
Statistics:	Descriptive Statistics, Hypothesis Testing, A/B Testing
Tools:	Git, GitHub, Jupyter Notebook, Google Colab

PROFESSIONAL EXPERIENCE

Weintern Pvt Ltd — **Jan 2026 – Jun 2026**
Data Analyst Intern — *Remote*

- Cleaned, preprocessed, and analyzed **10,000+ records** using Python, Pandas, and NumPy to address data inconsistencies and improve data quality.
- Wrote **20+ SQL queries** using joins, filtering, and aggregation to prepare data for analysis and reporting.
- Developed **5+ dashboards and reports** using Power BI, DAX, and Excel to monitor business performance metrics.
- Performed exploratory and statistical analysis across **8+ variables** using Matplotlib and Seaborn to identify trends, correlations, and patterns across **2+ projects**.

KEY PROJECTS

Product Funnel, Conversion & Retention Analytics
Python | Pandas | PostgreSQL | Power BI | Excel

- Analyzed **3,040 users and 15,942 events** to evaluate funnel conversion, customer retention, and acquisition-channel performance using Python and SQL.
- Used **SQL** to analyze user journeys, funnel drop-offs, conversion rates, and cohort-based customer retention to identify opportunities for product improvement.
- Built an interactive **Power BI dashboard** to track conversion rates, funnel performance, and cohort retention, supporting data-driven product decisions.
- Proposed an **A/B test** to improve the highest-drop-off funnel stage, defining success metrics and guardrail metrics.

Customer Churn Prediction & Retention Analysis
Python | Machine Learning

- Analyzed demographic, account, service usage, and billing data for **7,043 customers** to identify key patterns and factors associated with customer churn.
- Performed data cleaning, exploratory data analysis (EDA), and feature engineering; developed a **Logistic Regression** model to predict customer churn.
- Achieved **80% accuracy** in churn prediction and analyzed high-risk customer segments to identify potential customer retention opportunities.

EDUCATION

Bachelor of Computer Applications (BCA) — **Jul 2024 – Jul 2027**
Roorkee Institute of Technology — *Roorkee, Uttarakhand*

Senior Secondary Examination (Class XII) — **Mar 2024**
P.D.S.D. Inter College — *GopalGanj, Bihar*
